Hi Doug – Is there any chance we could push this out to the week of September 7? I am on vacation next week, and I have conflicts this week.

Thanks,

Riaz

Hello Riaz

Thanks again. I was waiting for some other risk management meetings to settle out before I sent some dates. Our team is available during the following times. Please let me know which slot works best for you and Scott. I will send an invite.

Appreciate it.

Doug

Hi Doug – I am happy to talk. I will be joined by a new ACA Staff Member, Dr. Scott Braithwaite (Director of Product Stewardship, Science and Technology). Scott will basically be the chief scientist here for risk evaluation issues. Please let us know of some times that work with you.

Best wishes,

Riaz

Do you have some time we could discuss methylene chloride. Noticed there are several conditions of use that might impact ACA members, including use as a degreaser, consumer use in brush cleaners, and possibly a few other uses.

Let me know.

Thanks, doug
